Professional Summary

Passionate and committed web developer with strong skills in Python, Django, and JavaScript, alongside expertise in HTML, CSS, and Bootstrap. Known for adaptability, problem-solving, and a willingness to learn and tackle any task, I bring a unique perspective grounded in critical thinking from my philosophy background. Eager to contribute to a team, especially in remote roles, with a focus on delivering responsive, user-centered web applications.

Technical Skills

- Languages & Frameworks: Python, Django, JavaScript (including React), HTML, CSS, Bootstrap
- Tools: Git, GitHub
- Other: Critical Thinking, Problem-Solving, Self-Learning, Remote Collaboration

Projects

Thriftbyzee - Fashion Business Website

- Description: Developed a responsive and user-friendly website for "Thriftbyzee," a small fashion business focused on clothing.
- Technologies Used: Django, JavaScript, Bootstrap, HTML, CSS
- Highlights: Leveraged JavaScript and Bootstrap to create a highly responsive and intuitive interface, enhancing user experience. The site effectively supports the business's online presence by simplifying navigation and product browsing.

Additional Python Projects

- Overview: Created several starter projects available on my [GitHub](#), demonstrating proficiency in Python fundamentals and Django application structure.
- Notable Skills Gained: Experimented with data handling, basic CRUD operations, and user authentication in Django, showcasing my ability to build functional components and debug effectively.

Education

Bachelor of Arts in Philosophy

Benue State University, Makurdi

- Skills Gained: Developed critical thinking, analytical, and creative problem-solving skills, which contribute to innovative approaches in web development and support quick learning of complex technical concepts.

Certifications & Online Coursework

- Python for Absolute Beginners - Green Chameleon Learning (Udemy)
- 100 Days of Code: The Complete Python Pro Bootcamp - Dr. Angela Yu (Udemy)
- Django Python: Build a Full Stack Website with Features - Dennis Ivy (Udemy)
- CSS, HTML, and Git - Dave Grey (YouTube)
- Bootstrap Tutorials - Bootstrap Official Site & W3Schools.com
- Self-Study: Frequently consult Python, Django, and Bootstrap documentation and engage with video tutorials to continually refine my skills.

Additional Information

- Problem-Solving & Critical Thinking: My background in philosophy enhances my approach to technical challenges, equipping me with the ability to analyze complex problems creatively and implement effective solutions.
- Self-Motivated & Adaptive Learning: Dedicated to continuous improvement through self-driven learning, demonstrated by completing multiple online courses, hands-on projects, and consistent practice in industry-standard tools and frameworks.
